Are web games free? ✓.Q: Alternative of \$basehref in Codeigniter framework I use the \$baseurl variable in Codeigniter to change my base URL, but it's not working. Code:

```
$config = array(); $config['base_url'] = ""; $config['index_page'] = ""; $config['uri_protocol'] = 'AUTO'; $this->load->library('upload', $config); $this->load->helper('form'); $this->load->helper('url'); $this->load->helper('html'); $this->load->view('top_menu_header'); $this->load->view('header_menu'); $this->load->view('home');
```

 I've set the base_url but it's not working. the url_protocol is auto. I would like to use something like \$basehref=" in Codeigniter to set the base URL. A: You can set \$config['base_url'] to something like \$config['base_url'] = ""; Then for every links you can always use href="index.php?url->uri_string();?>" Best regards ant of the state law cause of action that is part of the ERISA plan."
