

April 21, 2020 - I'm Scott Fowler, Product Manager for Tecplot 360. I've been with Tecplot since 1999, this job - I'd like to start with a brief description of our Tecplot 360 platform. Tecplot® 360 is an engineering systems design, data management and analysis software that allows you to create 3D system models, analyze their performance and develop documentation. We provide a data management platform and toolkit that enables engineers to design, analyze, manage, and document systems.
