What's new in Fifa 22:

- **NEW TECHNOLOGIES WILL DRAMATICALLY CHANGE THE WAY YOU PLAY FIFA, REMOVING THE CONSTRAINTS OF PACE, TACTICS AND DEFENCE TO GIVING YOU THE ABILITY TO CONTROL THE FIELD, SHOOT AND PASS ON THE RUN FROM ANY POSITION AND MAKE THREES.**
- **See the ball behind you instead of through you. Now you can predict where the ball is going to come from so you can “see” the pass before it’s even made.**
- **Learn to run with the ball. Now it’s much easier to gain control of the ball. In the past it was really difficult to dribble and change direction quickly. But, with Fifa 22 you’ll be able to control the ball with ease.**
- **Only dribble when you need to. Dribble the ball only when you’re in rhythm and receive the ball deep in your own half.**
- **Call your teammates for assistance. While you may not be able to physically control your friends, you’ll be able to get them to pass you the ball more times during the game. And because you will be able to control the ball, your players will be able to see the ball better and make run quicker**

- passing.
- **Focus on your next pass and not on your wrong foot.**
 - **Master the last word in one-on-one situations. Controlled dribbling will give you so much more when you're close to a player. That is, until you can deliver a masterful chip. Then you can start passing again.**
 - **Turn up the heat in the Final third. Take that opponent's attacker on and secure a good scoring opportunity. At the same time, learn how to control the game in a way that opens up space for others on your team.**
 - **With clever dribbling and some on-the-ball duels you can force a second for your team. Dueling starts after the defender has committed to a pass and ends when the defender recovers. To help the player win the duel, simply headbutt the ball if you want to win.**
 - **Master elite-level free kicks. There is so much more to learn in the skills you'll find on the elite-**
